

The second booking phase begins for us in August. After the summer vacation, everyone who didn't want to commit earlier will book now.

The summer season is coming to an end. Our hotels, **The PIONEERS** and the **Riders Lodge** are no longer fully booked and you no longer have to wait for a table in the café. This year the Riders Burger was our best seller.

In cooperation with Bank of Georgia, we set up the first ATM in Bakhmaro. We provide the space, the bank provides the ATM. This is important for the many small shops and children's play equipment providers that do not have a credit card terminal. So we can do something good for the general public in Bakhmaro.

There is good news from the huge investor project in Bakhmaro. Local opposition has resulted in construction not starting at least this year. Of course, postponed does not mean canceled. There is also good news about the access road. The street was renovated with a lot of effort last year and completed this spring. For us, this also presents the challenge of not damaging the new road surface in winter with the chains of the snowcats. We must live up to this responsibility.

We completed the **Riders Lodge** in the spring. The showers were tiled, the walls were partially reclad and the facade was completed. However, the freeriders will not see anything of the outdoor area with seating and green area in winter.

We have secured **Guesthouse T** as group accommodation for the next few years. We have been using this house since 2022. With 3 studios including private bathrooms, it offers 4 regular bedrooms and a lounge and dining area on the ground floor. The house has electricity-independent central heating. We have already carried out initial renovation work to create space for skis and ski boots.

We are still looking for a good house for the **Bakhmaro Base**. Every year there are new guesthouses and we will choose the one that has the most credible functionality.

Our current availability in detail:

The PIONEERS
